An Index to the Book
"The Comanchero's Neighbors"

A Book by: Herman H. Moncus

Index Compiled by Avis Crow

This book was originally published without an index. The Genealogy Club of Albuquerque has undertaken to compile indexes for those histories that have many references to genealogical information. This index is compiled with that in mind. It is designated as the "Surname Index" and a second section will index the photographs that were included.

Often a name will appear more than once on a page, and this is indicated by the use of (x2) to advise the researcher to look further on the page for additional mention of that name. When a name appears on consecutive pages, the dash is used to indicate each page in that series, i.e., 18-25. The name will appear on each page in those inclusive pages.
